EDUCATION

University of Massachusetts Amherst

Amherst, MA

Bachelor of Science in Informatics | GPA: 3.4 | Dean's List

May 2026

Relevant Coursework: Regression Analysis, Predictive Modeling, Data Visualization, Data Structures, Database Systems (SQL), Applied Statistics & Econometrics

PROJECTS

Financial Wellbeing Data Analysis

- Analyzed Consumer Financial Protection Bureau dataset to evaluate relationships between income, age, and financial stability
- Cleaned and structured data using Python (pandas) to prepare for exploratory analysis
- Created visualizations to highlight demographic trends and disparities in financial well-being
- Interpreted findings to generate insights on financial inequality and economic behavior patterns

Sleep & Productivity Analysis

- Collected and analyzed multi-week behavioral data (sleep duration, energy levels, focus scores) using structured logging
- Cleaned and merged data from multiple sources (Apple Health, manual surveys) using Python and Excel
- Built visualizations to identify correlations between sleep quality and daily productivity performance
- Generated data-driven insights to optimize daily habits and personal performance efficiency

EXPERIENCE

Securitas

Westborough, MA

Security Specialist @ Amazon

July 2024 – January 2025

- Monitored and analyzed incident reports using internal tracking and reporting systems to identify activity patterns
- Coordinated with UMPD, Residence Assistants, and dispatch to resolve incidents efficiently
- Supported operational decision-making through data-informed documentation and communication

City of Worcester

Worcester, MA

Assistant Site Coordinator

Summer 2022, 2023

- Managed daily planning and logistics for youth programs with 50+ participants
- Applied structured problem-solving and de-escalation strategies in fast-paced environments
- Coordinated communication across staff, parents, and supervisors to maintain program efficiency

LEADERSHIP & ACTIVITIES
